

In an ongoing effort to promote a healthful academic setting for our community, The University of Texas at Brownsville and Texas Southmost College adopted a Tobacco-free Campus policy effective September 1, 2010. The policy is in compliance with The University of Texas System Board of Regents Resolution Regarding Tobacco-related Health Concerns of June 6, 1991. The moral enforcement of this policy ensures a more healthful environment for our students, faculty and staff members, and visitors.
