

**Science
Associate of Science**

Texas Southmost College
Science, Technology, Engineering & Mathematics Division

Graduates from this program are introduced to a broad spectrum of science coursework that can be carried forward to science bachelor degrees as well as to health professions and teacher certification programs. Courses taken in this program may be credited toward bachelor degrees. Students should meet with an academic advisor to select the correct sequence of courses corresponding to the intended bachelor degree. Computer Science students should follow the Associate of Science in Computer Science. Engineering students should meet with an academic advisor for a valid course sequence for engineering programs.
