Traditionally, EMS Personnel have worked on ambulances as part of EMS Services. However, recently the field has become more versatile with the employers' awareness of the unique skills which a Paramedic brings with them. More and more, emergency rooms have begun hiring Paramedics as ER Technicians, plasma donation centers hire them as medical screeners, law enforcement agencies hire them as tactical medics with SWAT teams, oil platforms hire them as safety officers, critical care transport companies utilize them as flight medics, and fire departments utilize fire medics a lot of the time.
