1. Announcements

Dr. Robles announced that Dr. Tercero has been recognized for outstanding leadership. She has been selected to receive the 2012 Distinguished Graduate Award of the Community College Leadership Program for the University of Texas at Austin. She has also been asked to serve as a lecturer for the Community College Leadership Program on April 2, 2012. This a grand honor for one of our very own. Congratulations to Dr. Tercero for this honor.

Dr. Tercero has also been appointed to serve on the Developmental Education Advisory Committee of the Texas Higher Education Coordinating Board.

Dr. Tercero announced that the Certificate of Achievement for Excellence in Financial Reporting has been awarded to the TSC District by the Government Finance Officers Association for its Comprehensive Annual Financial Report (CAFR). This award marks the fourth year in a row that the TSC District has received this recognition. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. I would like to recognize the efforts of the TSC Finance Office Staff for this achievement including, Chet Lewis, Nancy Saldana, Rosa Rodriguez, Claudia Cortina, Zoila Vasquez and Patricia Sanchez.
Dr. Tercero also announced that TSC is celebrating 85 years of providing educational opportunities to Brownsville and the surrounding communities. In commemoration of this most important event, TSC will be holding an 85th Anniversary Celebration on Wednesday, December 14, 2011, at The Arts Center, from 5:30 – 7:30 p.m. Everyone in the community is invited to join us for a wonderful celebration.

Consideration and Possible Action on Approval of Minutes of the Regular Meeting on October 20, 2011

A motion was made by Mr. Torres to approve the Minutes of the Regular Meeting on October 20, 2011 as presented. The motion was seconded by Mr. Mendez and carried unanimously.

5. District Elections

Mr. Chet Lewis, Vice President for Administration and Finance, announced that there have been some changes in the election law. The federal law changed allowing overseas voters more time to send in their ballots. State legislation, SB100, was enacted to address this change, which in turn changed the timing of when joint elections are held. Currently the District holds elections on even numbered years in May. Because of these changes, the county will no longer be able to support the District in the May election. The Brownsville Navigation District also holds their elections in May and are willing to share costs with TSC.

Dr. Robles asked about the cost of holding the election by ourselves, without partnering with other entities. Mr. Lewis reported that there is currently $185,000 budgeted for elections. He reported that amount should be sufficient to support our election if we partnered with the Brownsville Navigation District and paid the administration fees to the County. If there is a run-off, this cost should
also be sufficient. The cost of the election between both entities should break even. However, because neither entity has conducted an election on their own, without the county, there may be an increase in unforeseen costs of 10-15%. However, there are still enough funds in the budget to support the increase.

Mr. Frank Perez discussed SB100. He reported that the Board may move the election date from May 12th to November of next year. This would require that the terms of the trustees would also need to be adjusted to fall on the new election date. Mr. Perez also pointed out that there is some language that would also allow it to change the date to May of odd number years which would entail that a resolution be passed and sent to the US Department of Justice, who would then decide to accept or reject the requested change.

Mr. Perez explained that because this is so new, there are a lot of unanswered questions. If the board decides to change the election date to November, the current Trustee terms would be adjusted to conform to the new election date so that all of the terms would coincide with the new election date.

Dr. Tercero summarized that based on the options presented by Mr. Perez, the board has the option to leave the election date in May of 2012 or move to odd numbered years. At this point, the BND will be conducting their election in May. TSC could partner with them for this election in May, or partner with the City of Brownsville in November. Either way, TSC would have a partner to share the cost.

Mr. Torres confirmed that historically this election has been held with the Brownsville Navigation District. Mr. Lewis confirmed and verified that the County would no longer be able to assist us with the administration of the election. The District would be responsible for administering the election.

Mr. Lewis explained that TSC was paying an administration fee to the county and these costs were included in the current analysis. The personnel, materials, equipment and training are included in the estimated budget and very similar to what has been experienced in the past. He also stated that it would be prudent to hire someone who has experience in conducting the election to make sure it is done appropriately in accordance with the law. Dr. Lozano agreed that this would be prudent. Mr. Lewis explained that this can pursued further, once a decision is made on the election date. Dr. Lozano expressed his concern for unforeseen costs of the election.

A motion was made by Mr. Torres to move forward with the scheduled election in May 2012. The motion was seconded by Mrs. Garza and carried unanimously.

Mr. Chet Lewis explained that SB 1 made changes to the property tax code. In 2007, an option was given to the Board to allow the continuation of exemption of the goods in transit. The board reaffirmed to continue the taxation of goods in transit in 2007. He explained that goods in transit according to section 11.253 are “tangible personal property stored in a public warehouse for the person who acquired or imported the property, and which are transported to another location inside or outside Texas not later than 175 days after the property was acquired or imported.”

Because of the change in the law, SB1 is also requiring that TSC reaffirm the continuation of exemption of the goods in transit. In order to do that, a public hearing must be held to allow the public an opportunity to address this issue.

Dr. Robles reiterated that this is a continuation of the Goods in Transit. Mr. Lewis explained that if we were to not reaffirm, TSC would have a decrease in revenues.

Dr. Robles opened the Public Hearing and allowed speakers to address the Board in regards to the Continuation of Taxation of Goods in Transit. There were none.

Dr. Robles closed the Public Hearing.
