**Agenda Item:**
Consideration and possible action on proposal for UTB/TSC Transportation Services

**Rationale/Background:**
At the request of UTB/TSC, Brownsville Urban System (BUS) has developed a plan to provide transportation services for UTB/TSC students, faculty and staff. BUS has successfully applied for Job Access and Reverse Commute grants offered by the Federal Transit Administrator through TxDOT for many of their existing routes. The grant funds transportation services within low income communities that assist the community in transportation to place of employment and job training activities for which the proposed Scorpion Metro would qualify. There are two major components to the Scorpion Metro: the extension of an existing route (#14) that would reach the ITECC and Fort Brown Campus and a circulator route within the Fort Brown Campus. The grant provides 50% contribution for operating costs and an 80% contribution for marketing and infrastructure improvements. UTB/TSC’s contribution would be $188,200 for the first year. The grant allows for multiyear award. In order for BUS to apply for the grant, an agreement, including a financial commitment, would need to be executed with UTB/TSC. Funds for transportation shuttle have been set aside in the FY 2011 TSC budget in the amount of $225,000. Staff is seeking approval from the TSC Board of Trustees to authorize staff to enter into an agreement with BUS for transportation services and commit the funding allocated in the budget for this purpose.

Upon the implementation of the route UTB/TSC students, faculty and staff would have free access to Scorpion Metro and to the entire Brownsville Metro system (all of BUS’ routes within the City of Brownsville). The planned implementation date is January 2011. This item is planned to be presented to the Physical Facilities Committee on October 18, 2010.

Motion to authorize staff to enter into an agreement with BUS for transportation services for UTB/TSC

**Agenda Item:**
Review of the Deferred Maintenance and Capital Improvement Plan for FY 2011

**Rationale/Background:**
The office of Facilities and Planning develops the deferred maintenance and capital improvement budget requests every year. The items on the deferred maintenance list and the budgeted amounts are gathered from various sources including Facilities Renewal Resource Model and internal estimates derived from visual inspections and reports from various crew members maintaining the various campus systems.

In addition, throughout the year an assortment of requests for office renovations, repurposing of buildings and new construction needs are compiled for consideration in the budget cycle. The Deferred Maintenance and Capital Improvement list is reviewed with the Provost to determine priorities as the needs usually exceed the funds available.

The enclosed list represents the recommendation for allocation of funds from the Capital Improvement item in the Fiscal Year 2011 budget. The list is being presented for approval as requested by the Board of Trustees. This item is planned to be presented to the Physical Facilities Committee on October 18, 2010.
